

Net Stable Funding Ratio (NSFR) Disclosure – 30 June 2021

Introduction

The public disclosure relating to Net Stable Funding Ratio (NSFR) has been prepared in accordance with the circular (2BS/356/2015) dated 25 October 2015 issued by Central Bank of Kuwait (CBK) as part of Basel III reforms and complementary to the existing liquidity guidelines.

The main objective of NSFR is to promote stable and long-term funding sources for asset financing and reduce reliance on less stable, short-term sources of funding.

In accordance with the CBK circular No.2/BS/IBS/454/2020 issued on 2 April 2020 and circular No. 2/BS/IBS/484/2021 issued on 22 June 2021, the minimum regulatory NSFR limit was amended from 100% to 80%. These amendments shall remain valid until 31 December 2021 and shall be reviewed by CBK by that time.

Definition

The NSFR is defined as the ratio of *Available amount of Stable Funding (ASF)* to *Required amount of Stable Funding (RSF)*.

Available Stable Funding (ASF) is defined as the portion of capital and liabilities expected to be reliable over the time horizon considered by the NSFR, which extends to one year.

Required Stable Funding (RSF) is defined as the portion of assets and off-balance sheet (OBS) exposures expected to be funded on an ongoing basis over a one-year horizon. The amount of such stable funding required by the bank is a function of the liquidity characteristics and residual maturities of the various assets held by that institution as well as those of its off-balance sheet exposures.

Liquidity Governance

The liquidity governance framework is guided by the Liquidity Policy of the Bank which is reviewed and approved by the Board of Directors. The policy outlines the roles and responsibilities within the Bank with respect to liquidity risk management and provides an overview of the processes including stress testing under various scenarios, for monitoring and managing liquidity risk as per CBK and internal guidelines.

The responsibility for managing liquidity in compliance with internal & external directives rests with Treasury under the oversight of Asset and Liability Committee (ALCO). The liquidity policy also covers the liquidity contingency / crisis planning which specifies the early warning indicators, the roles and responsibilities within the Bank in the event of a liquidity crisis and the actions to be undertaken by each business unit in order to address the crisis.

Funding Strategy

Gulf bank's strategy is to maintain stable and well-diversified sources of funds, with a focus on further raising long-term deposits from consumer banking clients, while continuing to grow and diversify the wider depositor base in order to meet its long-term assets funding requirements, thus maintaining a healthy ratio.

Besides having well established relationships with a variety of domestic, regional and international counterparties that regularly provide long-term funding, the Bank has also been able to obtain long-term funding from the debt market through the issuance of 10-year KWD 50 million Tier 2 Subordinated Bonds in June 2021, confirming the Bank's ability to obtain longer-term funding from the Debt Capital Markets if and when required.

The Asset and Liability Committee regularly reviews the macroeconomic indicators and market conditions to provide guidance on liquidity management.

Result Analysis and Main Drivers

The Bank's Available Stable Funding (ASF) as of 30 June 2021 was KD 4.293 billion and Required Stable Funding (RSF) as KD 3.950 billion with NSFR of 108.70%.

ASF is mainly comprised of Capital as per Basel III CBK regulations, Retail and SME deposits, Corporate deposits, deposits from Banks and OFIs and other liabilities after applying the available stable funding factors. Retail deposits (including SME deposits), Corporate deposits and Capital contributed 44.12%, 30.96% and 18.48% of the total weighted ASF amount.

RSF is primarily comprised of Corporate, Retail and SME loans, Investments, and off-balance sheet items after applying the required stable funding factors. Performing loans to non-financial customers and financial institutions contributed 78.24% and 10.68% of the total weighted RSF amount.

Net Stable Funding Ratio for Conventional Banks
Table 4: NSFR Common Disclosure Template For tRe Period ending on 30/06/2021

Bank Name		Gulf Bank				
Level:		UnweigRted Values (before applying NSFR factors)				
Sr.	Item	No specified maturity	Less than 6 montRs	More than 6 montRs and less tRan one year	One year or more	Value after applying tRe NSFR factors
