#### I.COMPOSITION OF CAPITAL

#### <u>Introduction</u>

The public disclosure relating to Gulf Bank's (the "Bank") Capital structure, information on Capital Adequacy and Additional capital disclosure has been prepared in accordance with the circular (2/BS/IBS/336/2014) dated 24 June 2014 issued by Central Bank of Kuwait ("CBK") as part of Basel III reforms. As per this circular, the Kuwaiti Banks must maintain a minimum capital adequacy ratio of 13% and minimum Tier 1 ratio of 11%.

#### 1. Capital structure as at 30 June 2021

Tier 1 capital comprises of Common Equity Tier 1 (CET1) and Additional Tier 1 (AT1) capital. The Bank CET1 comprises of paid up share capital, share premium and reserves including property revaluation reserve and fair valuation reserve less treasury shares. The Bank's Tier 2 comprises of allowed portion of general provisions (1.25% of the credit risk weighted assets) and subordinated Tier 2 bonds. The Bank has been identified as a Domestic Systemically Important bank (D-SIB) and is required to hold additional Common Equity Tier 1 capital (CET1) of 1%. Further to support COVID -19 measures, the Bank is required to maintain a minimum capital adequacy ratio of 11.5% and a minimum Tier 1 ratio of 9.5%.

#### Support measures on Covid-19

CBK issued the Circular No. 2/BS/IBS/454/2020 (the Circular) on April 2,2020 and circular No 2/BS/IBS/484/2021 on 22 June 2021 to provide support measures on Covid-19. The CBK took series of measures in its efforts to support the local economy and the banking sector in Kuwait by impacting through various measures to enhance the ability of banks to play a vital role in the economy, expanding their lending space, strengthening their financing capabilities, encouraging them to lend to productive economic sectors and providing liquidity to the impacted customers.

#### **Capital Conservation Buffer**

As per the Circular, the Capital Conservation Buffer requirement of 2.5% in the form of CET1 has been released. Accordingly the minimum capital requirement has been reduced from 14% to 11.5% (including 1% D-SIB); minimum Tier1 capital requirements from 12% to 9.5% (including 1% D-SIB) and minimum CET1 requirements from 11.5% to 9% (including 1% D-SIB). These amendments are valid until 31 December 2021.

#### SME definition and risk weights

As per the Circular, the definition of SMEs has been standardized in accordance with the definition contained under Law No. (98) of 2013 on the Establishment of the National Fund for Small and Medium Enterprises Development, amended under Law No. (14) of 2018, its executive bylaw and amendments. Risk weight applied on exposure to SME portfolio has been reduced from 75% to 25%. These amendments are valid until 31 December 2021.

#### 2020-Consumer and instalment loans deferral

In response to Kuwait Banking Association's Board Resolution, the Bank announced postponement of payment of consumer and instalment loans as well as payment due on credit cards for a period of six months effective from 1 April 2020, waiving also the interest and any other fees resulting from such postponement. The instalment deferrals are considered as short-term liquidity support to address individual borrower's potential cash-flow issues. The loan deferral scheme resulted in a modification day 1 loss of KD 42,212 thousand arising from the modification of contractual cash-flows. The modification loss is charged to retained earnings instead of income statement as required by IFRS 9 Financial Instruments in accordance with the CBK Circular No. 2/BS/IBS/461/2020.

As per the Circular, for the purpose of Capital Base, the Bank has excluded the modification day 1 loss of KD 42,212 thousand arising from loan deferral scheme from retained earnings. This loss will be included in retained earnings over the period of four years starting from the year 2021 until 2024. No impact has been considered for the period ended 30 June 2021.
