I.COMPOSITION OF CAPITAL

Introduction

The public disclosure relating to Gulf Bank's (the "Bank") Capital structure, information on Capital Adequacy and Additional capital disclosure has been prepared in accordance with the circular (2/BS/IBS/336/2014) dated 24 June 2014 issued by Central Bank of Kuwait ("CBK") as part of Basel III reforms. As per this circular, excluding DSIB, the Kuwaiti Banks must maintain a minimum capital adequacy ratio of 13% and minimum Tier 1 ratio of 11%.

1. Capital structure as at 30 September 2023

Tier 1 capital comprises of Common Equity Tier 1 (CET1) and Additional Tier 1 (AT1) capital. The Bank CET1 comprises of paid up share capital, share premium and reserves including property revaluation reserve and fair valuation reserve less treasury shares. The Bank's Tier 2 comprises of allowed portion of general provisions (1.25% of the credit risk weighted assets) and subordinated Tier 2 bonds. The Bank has been identified as a Domestic Systemically Important bank (D-SIB) and is required to hold additional Common Equity Tier 1 capital (CET1) of 1%. As per CBK circular No 2/BS/IBS/488/2021 dated 11 October 2021, from 1 January 2023 onwards the minimum capital requirement has been reinstated to pre-covid minimum of 14% (including 1% DSIB), minimum Tier 1 capital requirements of 12% (including 1% DSIB) and minimum CET1 requirements of 10.5% (including DSIB).

2020-Consumer and instalment loans deferral

During the year 2020 in response to Kuwait Banking Association's Board Resolution, the Bank announced postponement of payment of consumer and instalment loans as well as payment due on credit cards for a period of six months effective from 1 April 2020, waiving also the interest and any other fees resulting from such postponement. The instalment deferrals were considered as short-term liquidity support to address individual borrower's potential cash-flow issues. The loan deferral scheme resulted in a modification day 1 loss of KD 42,212 thousand arising from the modification of contractual cash-flows. In accordance with the CBK Circular No. 2/BS/IBS/461/2020, this modification loss was charged to retained earnings instead of income statement as required by IFRS 9 Financial Instruments.

As per the above Circular, for the purpose of Capital Base, the Bank has excluded the modification day 1 loss of KD 42,212 thousand arising from loan deferral scheme from retained earnings. This loss will be included in retained earnings over the period of four years starting from the year 2021 until 2024. Accordingly the Bank has excluded the modification day 1 loss of KD 21,106 thousand arising from loan deferral scheme from retained earnings.

GULF BANK K.S.C.P. Basel III: Capital and Leverage disclosures 30 September 2023

II. LEVERAGE RATIO

In accordance with the CBK regulations issued on October 2014 (CBK circular No.2/BS/342/2014), Kuwait banks must maintain minimum leverage ratio of 3% effective from 31 December 2014. Leverage ratio is calculated as a ratio of Tier 1 capital as per Basel III to the total exposure. Total exposure is the sum of on balance sheet exposures and off balance sheet exposures after applying the credit conversion factor.
